**DETAILED ACTION**

1. Claims 2-12, 16-18, and 20-23 are pending for examination.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - i. Group I, claims 2-12, 16, 18, 20-22, draw to a method of allocating available resource to perform task, classified in class 718, subclass 104.
  - ii. Group II, claims 17, 23, draw to an apparatus for reprogramming/reconfiguring portion of processor to be used for different tasks, classified in class 712, subclass 35.
3. The inventions Group I, and Group II are related as combination/subcombination wherein the invention Group II is broader combination of Group I. Group I is draw to a method for allocating available resource to perform task. Group II is drawn to an apparatus for reprogramming/reconfiguring portion of processor to be used for different tasks. The combination/subcombination are distinct from each other because Group I and Group III are directed to two specific inventions. In the instant case, inventions Group I, and Group II have separate utility such as search for Group I invention is not require for Group II invention and vice versa. See MPEP § 806.05(d).

Art Unit: 2195

4. Because these inventions are distinct for the reasons given above and have required a separate status in the art shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for one group is not required for the other group, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

### ***Conclusion***
